

Dear Directors of the Boys State and Girls State Programs,

I'm excited to inform you that Post University is now offering American Legion Boys State and American Legion Auxiliary Girls State participants the opportunity to earn 3 college credits this summer. Participants are eligible to enroll in *PSC102 State and Local Government* through our online High School Academy. This course was specifically designed for the American Legion Boys State and American Legion Auxiliary Girls State programs and provides an opportunity for your participants to apply the knowledge they have gained.

We are in the third year of hosting Laurel Girls State on our campus in Connecticut and we are very impressed with the young women that have participated in the program. We have also had the opportunity to work with Connecticut Boys State in other capacities as well. The commitment of both the young adults and their families, and your dedication to facilitating programs for youth is making an impact on the future of our Nation.

Post University has been ranked among the best colleges nationwide for veterans and military personnel, and we would be honored to work with the American Legion and the American Legion Auxiliary to provide educational opportunities to the students of the Girl and Boys State programs. We are happy to provide this course at a significant tuition reduction and we are excited about this future collaboration.

To learn more about the *PSC102 State and Local Government* course and partnering with Post University, please contact Christina Agvent.

Thank you for your consideration,

Christina Agvent
