

Poppy Days

Have you touch base with your schools, churches and community about our Poppy Poster contest. Have you been able send information to them including the story and meaning behind our beautiful flower. There is still some time. I need the posters to me by April 15, 2021. Please reach out to the youth of your community. I am sure they would love to participate as most kids love to draw.

Now that things have opened up some, hopefully we all can get out and show our poppies on Poppy Days. The monies we take in for poppies goes to our veterans. We all know how important that is and how they depend on us for help when needed. Please take a few hours of your time and go out and offer poppies. It is so needed.

Year end poppy reports are due to me no later than May 1 ,2021. As I must get my report to national by May 15, 2921. I would like to show national how Oregon shines when it comes to the Poppy Program.

Lastly, if any unit needs some poppies, I have some extra ones. I would be glad to bring them to DEC. Let me know how many. I ask for a very small donation to my unit where I am getting them from. They will have to be relabeled.

If you have any questions, please let me know.

Cindy Soria
Department Poppy Chairman
